AeroShell Grease 22 - 17 kg Pail - Wiadro - MIL-PRF-81322 - DEF STAN 91-52 - NATO G-395

Cena brutto	2 903,50 zł
Cena netto	2 360,57 zł
Kod EAN/Wewnętrzny	2693955800009

Opis produktu

Smar AeroShell Grease 22 is a versatile advanced general purpose grease composed of a synthetic hydrocarbon oil thickened with Microgel®, with outstanding performance characteristics. Appropriate additives are included to achieve the necessary oxidation and corrosion resistance, anti-wear properties and load carrying properties. The useful operating temperature range is -65°C to +204°C.

AeroShell Grease 22 is especially recommended for use wherever severe operating conditions are encountered as in high bearing loads, high speeds, wide operating temperature range, and particularly where long grease retention and high resistance to water washout are required.

The wide range of applications include aircraft wheel bearings, engine accessories, control systems, actuators, screw-jacks, servo mechanisms and electric motors, helicopter rotor bearings, instruments, airframe lubrication, hinge pins, static joints, landing gears.

AeroShell Grease 22 contains a synthetic hydrocarbon oil and should not be used in contact with incompatible seal materials.

Quantity: 1x 17 kg Pail

- MIL-PRF-81322F (United States)
- DEF STAN 91-52 (Great Britain)
- DCSEA 395 / A (France)
- NATO: G-395
- (Russia) CIATIM 201 and 203
- VNII NP 207
- ERA (VNII NP 286M)
