Aeroshell Grease 64 380g

Cena brutto	99,31 zł
Cena netto	80,74 zł
Numer katalogowy	21670654
Kod producenta	GREASE_64_400G
Kod EAN/Wewnętrzny	5011987017672

Opis produktu

AeroShell Grease 64 is a general-purpose grease based on synthetic oil, containing 5% molybdenum disulphide. It has EP additives and increased anti-wear and anti-corrosion properties in relation to AeroShell Grease 33 grease. The previous name of the grease is Aeroshell Grease 33MS, but due to the similar name to version 33, it has been changed. The product is intended for the lubrication of particularly heavily loaded points of the airframe, where it is necessary to use a grease containing molybdenum disulphide. AeroShell Grease 64 contains a synthetic ester base oil, so pay attention to seal compatibility.

Specification:

- MIL-G-21164D
- DEF STAN 91-57
- DCSEA 353 / A
- NATO code G-353
- Joint Service Designation XG-276
