Opis produktu

Get out on your record-breaking flight with an air bag so beautiful and brave as a pioneering pilots and a writer whose name wears. Thoughtful to be both compact and functional.

Dimensions: 12x5, 5x9,5 (width x lenght x height-in inches)

Deep:

Write your own adventure with our new airline bags, named after the authors of the storylines of aviation. The leather travel bag is made by hand with a whole-grain South American beef leather in the color of a bronze espresso with contrasting black leather pocket flaps. Uncoated to achieve an authentic look and wear, it will become more flexible with age and use, while taking a rich patina. Each skin has its own characteristic self-healing and markings, so that each bag is as unique as the remote control that owns it.

Referring to the tradition of the past, the travel bag contains insightful functions designed for a modern pilot, such as specially designed pockets for headsets, iPads and transmitters-receivers and sturdy, but wing-friendly, textured bottoms of PVC. Anyone who owns the Lightspeed headset will recognize the beauty, durability and ingenuity of the product, which will make flying more enjoyable for many years.

Functions:

- The central instant lock opens in a large, padded main chamber, which is spacious enough to hold the headphones and other necessary stuff.
- Transmit-receiver ctions with a leather antenna strap provide safe, easily accessible antenna storage.
- The divided front pocket organizer expands to the front, providing easy access to the necessary items.
- The reel on the back lock ensures convenient access to the iPads, paper charts or documents. The other side of the side pocket is adapted to large water bottles.
