Opis produktu

Airborne headphone adapter with PJ on ZS-M

An **PJ-ZS** flight interposer, which allows you to connect air headphones with PJ (PJ055 and PJ068) connectors to an installation with a ZS (29ZS14) socket.

The PJ plug is a standard for example. In the Cessna airplane and in airborne headphones, for example. our company.

The **PJ-ZS** adapter enables the connection of classic PJ-terminated headphones to installations equipped with a ZS-type connector that was commonly used in aircraft manufacturers (e.g. Wilga, Zlin).

The guarantee for the interposer is 3 years.
