Alcor By Tempest 2-1/4 EGT Meter - Green Arc - Type K 7.6 Ohm

Cena brutto	1 956,77 zł
Cena netto	1 590,86 zł
Kod producenta	46244

Opis produktu

Overview

Alcor EGT gauges are aircraft quality gauges which will provide precise monitoring of engine temperatures. PMA/FAA approved.

Features

- The best value in the industry backed by a generous 3 year warranty
- Save on fuel costs through precision leaning—running as little as 100° too rich can cost \$1,000 in wasted fuel over 100 hours
- Quick visual reference to peak EGT
- Calibrated to true temperature and intended for use with a 240" lead
- No risk of malfunction during electrical failure—requires no external source of power for operation
- Attention homebuilders—easy installation with no electrical system required
- Designed to provide temperature compensation for accurate readings year round, on the ground and at altitude
- All necessary mounting hardware included
- Alcor instruments are designed, manufactured, and supported in the U.S.A.

Specifications

- Type: K - Red and Yellow
- Size: 2-1/4"
- Resistance: Scale 1650F at 7.6 Ohm
- Weight: 0.2 lbs
- Alcor P/N: 46244
