Cena brutto	2 365,76 zł
Cena netto	1 923,38 zł
Numer katalogowy	21672434
Kod producenta	AVE-TNPCNA2WP5G
Kod EAN/Wewnętrzny	5900018974100

Opis produktu

If your aircraft has an extremely thin and streamlined empennage, the PosiTail Nano is the ultimate solution! As the world's smallest position and strobe light assemblies that meet all DO-160F and FAR requirements, this light will make your aircraft legal for night flying if your wing lights are not parallel to your aircraft centerline due to wingtip shapes. This light is also part of Aveo's exclusive GreenAir earth friendly aviation lighting series.

Weight (g):	95 g
Weight (oz):	3.35 oz
Operating Voltage Range:	9 - 36 Vdc
Output power - white steady:	2.7 W
Output current:	0.075A/LED
Warm up time:	less than 3sec
Transcend voltage:	60V, both polarities
Under-voltage lockout:	9V , not more
Over-voltage lockout:	36V, not less
Ambient temperature:	from -40°C to +85°C (from -40°F to +185°F)
Overheat protection:	+85°C / +185°F
Waterproof:	YES
Vibration-proof:	YES
Shock-proof:	YES
Dust-proof:	YES
