Concorde Battery RG-292-103A

Cena brutto	24 315,21 zł
Cena netto	19 768,48 zł
Kod producenta	RG-292-103A

Opis produktu

Overview

The RG-292-103A is a Concorde ♦ Platinum Series ♦ Aircraft Battery. The Platinum Series ♦ is comprised of premium hand made AGM Aircraft Batteries with excess power for many applications. RG-292-103A is housed in a aluminum fire resistant container.

Concorde recombinant gas (RG ♦ Series) valve regulated lead acid (VRLA) batteries for engine starting, emergency / essential power, and standby power applications are constructed with cutting edge Absorbed Glass Mat (AGM) technology. Concorde VRLA-AGM batteries are known for quality and reliable performance in cold climates including superior engine starting performance and excellent charge acceptance.

Features

- Superior starting power
- Reliable essential power in the event of a generator failure
- Low impedance design
- Maintenance free AGM Battery
- Constructed with non removable vent valves - no addition of electrolyte or water required, ever
- Factory tested to assure airworthiness
- Shipped fully charged
- Aircraft batteries rated for engine starting may be used for emergency power
- RG ♦ Series batteries ship HAZMAT EXEMPT via land, sea and air
-

Specifications

- Primary Aircraft Purpose: Helicopter and Turbine Aircraft Battery
- Voltage: 24V
- Rated Capacity C1= 1hr. (rate in ampere hours): 24
- Max Weight: 53 lb
