## Concorde RG-330 Aircraft Batteries

Cena brutto	<b>18 405,30 zł</b>
Cena netto	<b>14 963,65 zł</b>
Kod producenta	<b>RG-330</b>

### Opis produktu

#### Overview

Concorde recombinant gas (RG Series) valve regulated lead acid (VRLA) batteries for engine starting, emergency / essential power, and standby power applications are constructed with cutting edge Absorbed Glass Mat (AGM) technology. Concorde VRLA-AGM batteries are well known for quality and their ability to perform reliably in hot & cold climates with superior engine starting performance and excellent charge acceptance.

- Superior starting power
- Reliable essential power in the event of a generator failure
- Low impedance design
- Maintenance free AGM Battery
- Constructed with non removable vent valves - no addition of electrolyte or water required, ever
- Aerobatic: Non spillable at any altitude or attitude
- Factory tested to assure airworthiness
- Aircraft batteries rated for engine starting may be used for emergency power

RG-325 is housed in a polypropylene container with lifting rope attached to the molded polypropylene cover. M8 silicon bronze alloy terminals for corrosion free connections and maximum conductivity.

### Specifications

- Primary Aircraft Purpose: Helicopter and Turbine Aircraft Battery
- Voltage: 24v
- Rated Capacity C1 = 1 hr. rate in ampere hours: 30.00
- Max Weight: 61.00 lb / 27.7 kg
