Concorde RG-380E/40KS Aircraft Battery

Cena brutto	21 157,05 zł
Cena netto	17 200,83 zł
Kod producenta	RG-380E/40KS

Opis produktu

Overview

Concorde recombinant gas (RG Series) valve regulated lead acid (VRLA) batteries for engine starting, emergency/essential power, and stand by power applications are constructed with cutting edge Absorbed Glass Mat (AGM) technology. Concorde VRLA-AGM batteries are well known for quality and their ability to perform reliably in hot & cold climates with superior engine starting performance and excellent charge acceptance.

- Superior starting power
- Reliable essential power in the event of a generator failure
- Low impedance design
- Maintenance free
- Constructed with non removable vent valves - no addition of electrolyte or water required
- Aerobatic: Non spillable at any altitude or attitude
- Factory tested to assure airworthiness
- Aircraft batteries rated for engine starting may be used for emergency power

RG-380E/40KS is housed in a stainless steel fireproof container with louvered side vents. Stainless steel cover with fabric lifting straps. The RG-380E/40KS is a TSO C-173 authorized battery. Part of the RG-380E Series of turbine engine starting batteries in various capacities.

Specifications

- Primary Aircraft Purpose: Turbine Starting Aircraft Battery
- Voltage: 24v
- Rated Capacity C1 = 1 hr. rate in ampere hours: 38.00
- Max Weight: 86.00 lb / 39.0 kg
