Concorde RG28-7 Aircraft Battery

Cena brutto	17 423,10 zł
Cena netto	14 165,11 zł
Kod producenta	RG-28-7

Opis produktu

Overview

The RG-28-7 is a Concorde Platinum Series Aircraft Battery. The Platinum Series is comprised of premium hand made AGM Aircraft Batteries with excess power for many applications.

- C1 @ 23°C (74°F) = 9.0 Ah
- C1 @ -18°C (0°F) = 6.6 Ah
- C1 @ -30°C (-22°F) = 4.3 Ah

Avionics Battery for lighting, standby, emergency power. Protects and extends the life of other avionics. Concorde's Emergency Batteries float directly on the DC buss with no need for a dedicated charger. This results in a high inrush current which extends battery life with fast recovery time from discharge. With the battery floating directly on the buss, transient spikes in the DC power are absorbed. These batteries are self regulating on charge and will take only the current required to maintain it at full charge.

Features include:

- Volt Meter
- Test Button

Recombinant Gas - The RG Series are low resistance, valve regulated lead acid (VRLA) batteries.

- Maintenance free
- Constructed with non removable vent valves no addition of electrolyte or water required
- Factory tested to assure airworthiness
- Manufactured with absorbed glass mat separators (AGM)

Specifications

- Primary Aircraft Purpose: Emergency Aircraft Battery
- Voltage: 28v
- Rated Capacity C1 = 1 hr. rate in ampere hours: 9.00
- Max Weight: 30.00 lb / 13.6 kg
