H3R Fire Extinguisher Model C354TS

Cena brutto	2 365,05 zł
Cena netto	1 922,81 zł
Kod producenta	C354TS

Opis produktu

Overview

MODEL C354TS - Halon 1211
 Typical use: Cockpit/Cabin

Smallest model with a discharge hose (to facilitate proper upright use). Twenty percent more Halon 1211 than model C352TS, is the same size and uses the same mounting bracket.

Specifications

- Agent weight 3.0 lb. / 1.361 kg
- Gross weight 5.6 lb. / 2.523 kg
- Discharge range 9-15 ft. / 2.7- 4.6 m
- Discharge time 12 sec.
- Height 14.4 in. / 36.6 cm
- Width 6.3 in. / 15.9 cm
- Cylinder diameter 3.0 in. / 7.6 cm
- UL rating 5B:C
- Bracket Double Strap (Standard)

Shelf Life

The inspection and maintenance requirements for gauged fire extinguishers such as model C354TS, C352TS and A344T per NFPA 10 call for a 6-year maintenance and a 12-year hydrostatic test calculated from the month and year of manufacture. As long as the extinguisher undergoes the maintenance and passes the test it can remain in service.

H3R Aviation calculates the remaining shelf life of its gauged fire extinguishers by comparing the timing of the 6-year maintenance to the month and year of manufacture per the following formula.

$(72 \text{ months} - \text{Months elapsed from manufacture date}) / 72 \text{ months} = \text{Shelf life remaining}$

For example, if an extinguisher was manufactured in February of 2009 and the current month is June 2009, it has a remaining shelf life of 94%.

$(72 \text{ months} - 4 \text{ months}) / 72 \text{ months} = 94\%$
