### Opis produktu

The PRO-2-A model is a headset with an **XLR-5 (5 pin) connector for an Airbus** powered by David Clark's **stereo/mono** technology. This is the second generation of these headphones characterized by the modified M-5A microphone. The PRO-2 headphones provide beige connectivity thanks to the use of modern technology, and comfort thanks to the high quality of the materials used. This is one of the lightest models of the manufacturer. Adding to this elegant look we get a really attractive and proven product for an unguessed price, used all over the world by both civilian as well as military pilots. Bag David Clark in the set.
