### Opis produktu

#### ICOM IC-A25 CE Radiotelefon aviation

Air radio **IC-A25CE** works with 8.33kHz and 25kHz. It has support for COM channels. It has a large display, an air bandwidth service from 118MHz and a "screen negative" function for night-time work. ICOM IC-A25CE air radiotelephone is similar to the IC-A25NE, but in the A25NE version, the functions of bluetooth and GPS are added to the radio. The appearance is also slightly different-the border around the front panel.
