LPS Lst Penetrant

Cena brutto	71,75 zł
Cena netto	58,35 zł
Kod producenta	01916

Opis produktu

Overview

A deep penetrating formulation attacks rust and corrosion to free "frozen" parts. LST has an extremely low surface tension that combines with a powerful foaming action to provide complete surface coverage, better penetration and improved moisture displacement. LST Penetrant lubricates and protects against rust and corrosion.

Features

- Specially formulated with low surface tension for fast penetrating action
- Displaces moisture
- Loosens rust and corrosion to free frozen parts
- Powerful foaming action provides complete surface coverage
- Flash point of 175F (79C)
- Compatible with most rubber and plastic surfaces

Specifications

- VV-P-216C Type 1
- A-A-50493 Class B Types I and II
- Tampa Electric Co.
- Minntac - US Steel
- Timken Steel
- City Public Service
- Tyson
- NSF International
- General Motors Co.
- Pratt & Whitney Canada CPMC 79138-1
- ASTM F-945

Applications

- Bearings
- Bolts
- Chains
- Conveyors
- Corroded Fasteners
- Equipment disassembly
- Hinges

- Nuts
