## LPS Strong Steel Sticks

Cena brutto	<b>77,64 zł</b>
Cena netto	<b>63,13 zł</b>
Kod producenta	<b>60159</b>

### Opis produktu

#### Overview

Strong Steel Stick is a convenient, easy-to-use, hand-kneadable stick for immediate repairs to steel equipment and surfaces. It is ideal for stopping leaks and even works on underwater applications. In addition, it permanently fills gaps and holes in metal, concrete, wood, fiberglass, and ceramics. Strong Steel Stick has a working time of four minutes, and will fully cure in 30 minutes to form a durable mass which can be machined, drilled, and painted. Strong Steel Stick can be used for many types of repairs, such as plumbing, electrical, ceramic, vehicle, equipment, and machinery. It is ideal for patching holes and cracks in pipes, drums, and tanks.
