MICHELIN PILOT TIRE 7.00-6 8 PLY 025-321-0

Cena brutto	1 968,82 zł
Cena netto	1 600,67 zł
Numer katalogowy	21674379
Kod producenta	025-321-0
Kod EAN/Wewnętrzny	5900038974104

Opis produktu

The MICHELIN® PILOT® high performance bias tire is designed to be the best tire money can buy for propeller driven aircraft. Reflecting their proven history of developing ultra high performance tires, the MICHELIN PILOT tire offers the latest state-of-the-art features.

Extra Long Tire Life

Engineered from the ground up to provide more landings due to highly-durable rubber compounds and up to 21% deeper skid depth than the leading competitor's tires.

Latest Carcass Technologies

Helps provide an exceptional level of strength and durability.

All Weather Protection

Designed for longterm ozone and UV light protection, as well as excellent hydroplane resistance.

Optimized Tread Profile

Helps provide for true track taxi, take offs, and landings.

Tubeless Design

Reduces overall wheel weight and helps eliminate tire creep on the wheel (MICHELIN Pilot tires can be used with a tube on tube-type rims).
