MS28775-238 O-RING

Cena brutto	37,18 zł
Cena netto	30,22 zł
Kod producenta	MS28775-238
Kod EAN/Wewnętrzny	2694118300008

Opis produktu

PN	MS Equivalent	Width	ID	OD
05-05160	MS28775-238	1/8	3-1/2	3-3/4

Overview

O-rings give effective sealing over wide ranges of pressure, temperature, and movement, with the advantage of sealing pressure in both directions and reducing friction and wear on moving parts. The use of O-rings as gaskets or static seals permits metal-to-metal contact and allows almost unlimited pressures under extreme vibration.

All O-rings should be lubricated before installation and constant lubrication should be provided for running seals to avoid excessive wear. Avoid sharp edges, threads, and cross-drilled ports over or through which rings must be installed. AN6227B and AN6230B O-rings are manufactured to Spec. MIL-P 25732 for use in hydraulic systems using MIL-O-5606 hydraulic oils. MS28775 O-rings meet Spec. MIL-P- 5510A and are suitable for MIL-O-5606 hydraulic fluid at 160 F.
