### Opis produktu

This larger format logbook is issued as standard by many commercial pilot training schools, used widely by commercial pilots and conforms to air navigation order requirements. Contains approximately 200 printed pages to detail owners name and address, a course of licences held, past experience, record of simulated training practices and flights. Showing date, type, registration, captain's name, operating capacity, departure/arrival aerodromes and times, day or night, single or multi-engine (with larger allocation of space for multi-engine), instrument flying, other flying, remarks and brought forward and carried forward totals.

Specifications:

Dimensions: 260mm (width) x 215mm (height).
