Opis produktu

NYCO 65 VASELINE TECHNICAL PETROLATUM (GREASE) .

- NATO CODE S-743
- AIR 3565/A Iss.2
- VV-P-236 A Amd. 2 (Obsolete)
- DEF-STAN 91-38 Iss. 1 - PX-7

Nyco 65 Vaseline is a stiff, rather tacky petrolatum (heavy mineral paraffin wax), with a melting point in the range 45 to 65°C. It is not aggressive to any metal or alloy.

Applications :

- Anti-seize, assembly and dismantling
- Helicopter systems
- Normal temperatures
- Light loads
- Certain types of rust preventive compounds
