Opis produktu

The latest development of a handbook for PPL (H) training courses, which will be trained on the Robinson R44 Raven Bogato, written in an accessible language, is a compendium of knowledge for each pilot during the course of the training and after obtaining a license.

NOTE!

The product is an E-book, after you purchase a book in digital form, on an IOS or Android platform

The Pooleys Robinson R44 guide tells you everything you need to know about the R44 including its construction, systems, limitations, performance and operating procedures. The guide is illustrated with numerous diagrams, tables and colour photographs. Graeme Cash has been flying helicopters for over ten years and currently holds a commercial pilot's licence and flight instructors rating.

Originally from Wigan, Graeme now lives in Blackpool with his wife and daughter and conducts helicopter flight training in Robinson R22s and R44s.
