Cena netto	133,51 zł
Numer katalogowy	21670905
Kod producenta	ASA-PTT-1A
Kod EAN/Wewnętrzny	5900003314102

Opis produktu

Good communications are essential to a successful flight. This convenient switch mounts to the yoke with a velcro strap, allowing pilots to use their thumb to push the button and communicate with ATC, Unicom, or other aircraft. This eliminates the distraction of picking up the microphone, for hands-free communication that keeps pilots focused on flying the aircraft. Particularly useful for rental aircraft, which typically might not have push-to-talk switches installed.

Features include:

- Low-profile ergonomic button
- Superior contact switch
- Heavy-duty gold-plated plugs and jack
- Durable, shield coiled cord
- Hook and loop mounting strap
- Plugs into aircraft radio or intercom
- Molded strain relief

Part Number ASAPTT1A
