Opis produktu

The RAM Gas Tank base is a low-profile way to get a unique perspective from your camera or to attach your electronic device where it can be quickly accessible.

This powder coated aluminum base mounts directly to the stock gas tank of any listed compatible motorcycles. We include the hardware you need to mount to the fill port as well. Included is the X-Grip for large phone devices.

The X-Grip® includes a device tether recommended for outdoor applications. The cradle is compatible with handheld devices that will fit the dimensions listed below. It is important to verify the dimensions of your handheld device with a case/sleeve/skin when determining the overall size.
