RAMI AV-601 Radar Antenna

Cena brutto	1 473,74 zł
Cena netto	1 198,17 zł
Kod producenta	AV-601

Opis produktu

Overview

The AV-601 antenna is designed specifically to meet FAA TSO-C87a specifications. Qualification testing includes meeting the requirements of EUROCAE ED-30, Edition 2, Minimum Performance Standards for Airborne Low Range Radar Altimeter Equipment, as modified by Appendix 1 of the TSO.

Specifications

- Application: Airborne Low Range Radar Altimeter
- Frequency: 4200-4400 MHz
- Impedance: 50 Ohms
- VSWR: 1.5:1 Max (4275-4325 MHz) / 2.3:1 Max (4200-4400 MHz)
- Polarization: Linear
- Pattern: Roll Plane(E): 45° min.
- Beam Widths: Pitch Plane (H): 40° min.
- Connector: TNC Female
- Max Height: .14"
- RF Power Capacity: 5 watts avg./500 watts max.
- FAA TSO: C87a
