RAMI AV-924 Transceiver Antenna

Cena brutto	5 998,51 zł
Cena netto	4 876,83 zł
Kod producenta	AV-924

Opis produktu

Overview

The AV-924 antenna was developed to be used with airborne FM transceivers typically used in first responder type aircraft providing a single antenna solution for the multiband transceivers. It meets DO-160G, section 8, Category U requirements for robust vibration and is qualified for installation on helicopters with unknown related rotor frequencies.

Specifications

Application

- Airborne Communications

Frequency

- 136-174 MHz
- 380-520 MHz
- 760-870 MHz

Impedance

- 50 Ohms Nominal

VSWR

- 3.0:1 Max

Polarization

- Vertical

Pattern

- Omni-Directional

Connector

-  TNC  Female

Color

- AV-924 Gloss White

RF Power Capacity

- 10 Watts VHF, 10 Watts UHF Max
