Opis produktu

ROYCO® 363
GENERAL PURPOSE LOW TEMPERATURE LUBRICATING OIL

ROYCO 363 is a highly refined mineral oil based lubricant formulated with modern additives to provide oxidation and corrosion protection, low temperature fluidity, rust inhibition, and good resistance to evaporation.

ROYCO 363 is recommended for the general-purpose lubrication of instrument and airframe components including bearings, actuators, hinges and latches on both military and civilian aircraft. It is suitable for use over the temperature range from -54°C to 120°C.

Features :

- Rust, corrosion and oxidation additives
- Resistant to galvanic corrosion (bi-metallic)
- Highly refined mineral oil-based
- Good evaporation resistance

Specifications :

- MILSPEC: MIL-PRF-7870D
- NATO Code O-142 .
