SIGMATEK 3-1/8" RESTRAINED AIRSPEED 40-250MPH 40-200KNT

Cena brutto	5 011,31 zł
Cena netto	4 074,24 zł
Numer katalogowy	21672040
Kod producenta	EA5175
Kod EAN/Wewnętrzny	5900015074100

Opis produktu

These airspeed indicators have restrained movements. These instruments are actuated by ram air and ambient atmospheric pressure obtained from the aircraft pitot and static pressure systems. A moveable pointer and a fixed dial indicate airspeed with the zero index at the 12 o'clock position. Temperature compensation is internal and there is no external zero adjustment. Pointer damping is internally adjustable.

Note: Lighted Instruments do not include lamp trays, see accessories.
