Opis produktu

PRODUCT DESCRIPTION:

RAM-HOL-TAB12 consists of a spring back plate and non-standard support for the iPad mini with a sturdy case. The spring design makes it easy to load and unload the tablet, and also provides it with safety during the trip. The tip of the cups is designed to optimize the functionality of the tablet, allowing you to access the audio, USB, power and other ports that you can use as intended. RAM-HOL-TAB12, ideal for stationary or travel applications, is what you need to take full advantage of the tablet's capabilities.

This handle is compatible with the following tablets:

Apple iPad mini with Heavy Duty futeral (including Otterbox Defender)

Each tablet that matches the dimensions listed below

Handle dimensions:

Height: 173 mm minimum up to 228 mm maximum
