Opis produktu

PRODUCT DESCRIPTION:

The new X-Grip ® RAM product line has just become bigger and better. This new model is exactly what you are looking for to accommodate your favorite tablet. Just like the devices for which it was created, it's all you need and nothing you don't need. Simple in opening and closing, the X-Grip ® spring RAM leaves the outer edge of the tablet almost completely free from annoying obstacles. The soft rubber fingers attach sufficient strength to make the tablet safe. Compatible with a wide range of mounting solutions, the tablet will certainly find a home, no matter where it takes you to travel.

The RAM handle-HOL-UN11 expands and shrinks to perfect fit of most 10-and 12-inch tablets with or without sleeves, as well as some smaller tablets. This RAM ® handle consists of a composite spring handle, the folded arms gripping and the additional support of the lower support bracket.

Compatible devices (with or without enclosure):

Apple iPad Pro

Microsoft Surface Pro 3

Samsung Galaxy Note ® Pro 12.2

Most 12-screen Tablets

X-Grip ® handle dimensions:

Minimum width = 184 mm

Maximum width = 222 mm

Maximum length (NO extra support) = Unrestricted

Maximum length (with additional subpores) = 260 mm

Depth = 22 mm
