WINTER 2-1/4 ALTIMETER EBH 8032 0-5000 FT MB

Cena brutto	3 569,94 zł
Cena netto	2 902,39 zł
Numer katalogowy	21672168
Kod producenta	8032
Kod EAN/Wewnętrzny	5900016344103

Opis produktu

Altimeters measure static air pressure, which decreases with altitude.

The pressure-sensitive measuring element is a diaphragm capsule (aneroid capsule) which reacts to the effect of changing air pressure as the aircraft changes altitude. Tempered, aged copper-beryllium diaphragms ensure highly accurate readings.

Diaphragm movement is transmitted to the instrument pointers by a linkage and gearwheels - the whole is insensitive to shock and vibration. A bimetal link compensates the effect of temperature change.
